A CMM ROAD MAP FOR DOE-EM	v
SUMMARY OF DOE-EM CMM R&D GOALS	viii
INTRODUCTION	1
OVERVIEW	1
A CMM Science and Technology Development <i>ROAD MAP for DOE-EM</i>	
Identification of Goals	
Organization of this <i>CMM ROAD MAP for DOE-EM</i>	
A CMM R&D VISION FOR DOE-EM	3
Science and Technology Development Visions; VIPs	
Waste, Source, and Nuclear Materials Characterization	
Process and Product Monitoring	
Long-Term Monitoring	
Nondestructive Methods	
Improved Scientific Understandings	
STRATEGIES	9
The Role of the OST CMST-CP	
Site Needs-Based Science and Technology Development	
Other OST Strategies	
Other Avenues	
Real-Time Monitoring and Characterization of Soils and Groundwater	12
Alternative High-Level Waste Tank Disposition	
Emissions Monitoring for High-Level Waste Processing	
Understanding Natural Processes Affecting Contaminant Fate and Transport	
PROBLEM AND OPPORTUNITY AREA HIGHLIGHTS	21
WASTE, SOURCE, AND NUCLEAR MATERIALS CHARACTERIZATION	22
Characterization of Contamination Sources	
Characterization of Waste and Nuclear Materials	
The Deactivation and Decommissioning Free Release Goal	
Regulator and Stakeholder Concerns	
A Vision for 2012	
PROCESS AND PRODUCT MONITORING	26
High-Level Tank Waste Processing	
Mixed and Mixed Transuranic (TRU) Waste Treatment	
Waste and Nuclear Material Stabilization	
Monitoring of Soil and Groundwater Remediation	
Monitoring of Facility Deactivation and Decommissioning	
A Vision for 2012	

LONG-TERM MONITORING	29
Long-Term Monitoring Challenges	
A Vision for 2012	
NONDESTRUCTIVE METHODS	31
NDA and NDE for Mixed and Mixed TRU Wastes	
High-Level Waste Tank Integrity	
Nuclear Materials and Spent Nuclear Fuels	
Non-Intrusive Techniques for Facility Deactivation and Decommissioning	
A Vision for 2012	
IMPROVED SCIENTIFIC UNDERSTANDINGS	32
Subsurface Science	
Emerging and Evolving Technologies	
Data Collection and Interpretation	
A Vision for 2012	
 Monitoring Mixed Waste Treatment Processes and Effluents	34
<i>In Situ</i> Detection of Surface Contamination to Free Release Goals	
Long-Term Monitoring of Remedial Measures	
Improved Methods and Strategies for Managing and Interpreting Data	
SOLUTION PATHS	43
PATHWAYS TO R&D PROVIDERS	
FUNDING AND PROJECT MANAGEMENT	
EXAMPLES	
SUMMARY	45
REFERENCES	46
ACRONYMS and ABBREVIATIONS	47
APPENDIX A: PROBLEM AND OPPORTUNITY AREAS	
APPENDIX B: SELECTED VISIBLE AND IMPORTANT PROBLEMS	

TechID* 1514: Rapid Liquid Sampler

* TechID numbers refer to the DOE-EM OST Technology Management System database, <http://ost.em.doe.gov/tms>.
